Changing lives stitch by stitch

Kenana Knitters

In 2005 my Mother in Law who was a knitter, brought me to the workshop to learn how to knit. Prior to that, I had been helping her with her knitting working on small pieces and parts of various items that she would be working on.

After a while, she began to encourage me to register as a knitter, she felt that I could help my family better through knitting. I am very glad that she gave me that push to join Kenana Knitters.

Susan joined our permanent staff in 2012. She is a strong team player and is currently our Checking and Labelling Supervisor.

Susan is a mother of Seven(7) and a grandmother to two year old Isaac Nyumina.

All the women here at Kenana Knitters work very hard to make all these beautiful products. I would like to encourage all our customers to continue buying more of our products, so that we are able to continue providing for our families. Your support is very important to us.
