

Grace Wambui

Changing lives stitch by stitch

Kenana Knitters

Grace joined the knitters in 2016, prior to that was running her own business selling clothes at the local village center. Her business income was low and due to intense competition she was unable to continue with the business. It was at this time that her friend encourage her to come and join Kenana Knitters.

In the two years since she joined the knitters, Grace has emerged to be an extremely competent knitter who happily takes on the challenge of new and complicated patterns. She is a member of the team that is involved knitting samples for new product development.

Grace has 3 school going children aged between 11 and 15 years.

I thank Kenana for the good work that we do. Doing this work has been more profitable than running my own business. I am assured of a good income if I work hard.
