Changing lives stitch by stitch

Kenana Knitters

When I came to Kenana Knitters in 2002 my youngest child was about 3 years old. I came to Kenana because I needed work to help support my children. My husband works as a casual labourer and sometimes it is very difficult to find work.

Kenana has helped me building a permanent home for my family. My children have grown up and only one is still in school.

Tabitha joined the permanent staff in XX she is an assistant at the wool store. Her daughter Milcah is also a Knitter.

When I look back at how far I have come, I can only be grateful to Kenana for the opportunity that it gives to women like me. Thank you Kenana Knitters.
