

Regina Ngonyo

Changing lives stitch by stitch

Kenana Knitters

Regina came to Kenana in 2006 as a knitter on the general floor. In 2011 she joined the permanent staff. She currently works on new patterns and is an assistant on the repairs table.

At the age of 46 years, Regina is a mother of 9 children and already has 5 grandchildren. The income from her work has enabled her to educate her children, she has also managed to purchase a small plot of land, where together with her husband they have built a home for the family.

Thank you very much to Kenana Knitters for giving women work and for believing in us. I pray for the continued prosperity of the company.

Regina Ngonyo
