

Ann Emuria

Changing lives stitch by stitch

Kenana Knitters

Ann came to the knitters in 2005, she had heard from her neighbours and friends that Kenana was recruiting new knitters so she came to see if she could join. Ann was already a knitter, she was knitting sweaters for her children and also making crochet décor items for her house.

Ann is the sole bread winner of her family of four children. Her husband is unemployed and relocated away from the family to live in Northern Kenya, Lodwar in 2009.

This work had helped me to raise my children, two of my children will be finishing secondary this year. I have managed to do this single handedly, Kenana truly been a God send for my family.
