

Virginia Wairimu

Changing lives stitch by stitch

Kenana Knitters

Virginia joined Kenana Knitters in 2015, she was introduced to the knitters by her friend and neighbor Mary Mumbua who was already an established knitter.

When she joined Kenana, Virginia and her husband had already invested in building a family home . The work at Kenana gives her, her own income and an opportunity to meet and share ideas with the women when at the knitters workshop. She has bought a milking goat and has also invested in chicken layers for eggs.

I want to say that Kenana is a great place to be, the women who work here are able to uplift their lives and those of their families. .
