**Changing lives stitch by stitch**

# Kenana Knitters

Lucy came to Kenana in 2005, she was already knitting and selling sweaters, socks and rompers for babies. When she heard about Kenana she came to see if there was work as business for her products was declining due to the readily available secondhand clothing market.

Over the years Lucy has proved to be an excellent knitter who is always keen to taken on a new challenge. She is extremely hard working and is second overall in terms of production.

*I thank Kenana for giving me work that I can rely on to feed my family and meet needs. I do not have to look for other work to supplement my income.*

*Lucy Njeri*
