

## Nancy Ekeno

# Kenana Knitters

Nancy is one of our founder knitters, she started working at the knitters 1998. When Nancy joined the knitters she had 4 children and the family desperately needed the extra income. Her husband at the time was employed on Kenana Farm as a farm hand.

The work was ideal for Nancy, as she would come to work with her children and they would spend the day playing with toys, while she knitted and finished her items.

Nancy's family has grown and she is now a mother of 8, all boys. Two of her sons are still in primary school, three are in secondary and she has two of her sons at University and one at a polytechnic college.

Nancy has always been a very reliable knitter. Her husband is now a pastor and runs his own church. She is a strong guiding hand for the women at the workshop.

*This work has been a godsend for me and my family. The plot of land that we own as a family was purchased with my bonus payment from Kenana Knitters. I have worked very hard for Kenana Knitters and I know that my work has always been appreciated. My husband and I met here on Kenana Farm and all our children were born here on the farm. Paddy and Bruce have been a very strong and positive force in our lives. My family and I thank them from the bottom of our hearts. We pray for their continued health and prosperity.*
