

Margaret Karanja

Changing lives stitch by stitch

Kenana Knitters

In 2006 Margaret joined the knitters, she was introduced to us by her friend Monica Muthoni. At the time of joining she had been working on the side, helping Monica with knitting and was already quite proficient.

Margaret has always loved her knitting and particularly enjoys knitting the Hippo massive Sitter Critter. She also enjoys knitting medium Safari and Spider animals.

Margaret is a mother to 5 daughters and says that she feels particularly blessed to have so many girls.

Working at Kenana has been a great opportunity for me. When, I look back to when I started knitting my girls were so little and in school. Now I have only one child in school and she will be finishing her secondary school this year. The knitting has enabled me to better my life and take good care of my daughters. Thanks for everything Kenana Knitters.
