Changing lives stitch by stitch

Kenana Knitters

Nancy has been with Kenana Knitters for the last 18 years, she started off as a spinner for Kenana. Unfortunately, in August 2000 she was involved in a motor accident and broke both her legs and was unable to use the spinning wheel. While recuperating she decided to learn how to knit to make use of her time.

Nancy is an expert in knitting bundu owls and lions she also enjoys knitting safari lions. She is a mother of 3 and has 3 grandchildren.

After my accident, I went through a very difficult time emotionally and financially. Kenana Knitters was there to assist me, they ensured that I received all the treatment and therapy required for my rehabilitation. While I was recovering, I learnt how to knit and was able to continue earning money while I was sick. I really thank Kenana for the support they have given me and; for uplifting the women in local community. If it was not for the knitters many of us would be sitting idle at home. I want to thank Kenana Knitters for everything.
